

Business & Computer Education

| Name of Class | Description | Grade | Prerequisite |
|--|---|-------|--------------------------------------|
| Introduction to Business & Marketing | So what is “business”? This course sets the foundation for all other business classes and helps students discover if business and marketing is right for them. Because of the variety of topics covered in the class, students can explore many different sides of business in just one semester | 9-12 | None |
| Computers in the Workplace (formerly Business Comp Apps) | According to Business Insider, April 2017, over 90% of desktop users have some sort of Windows operating system and according to Microsoft there are over 1.2 billion Office users worldwide. In this class, students will leave high school prepared for a world without Apple products as the main computer technology. With all UW schools requiring students to use Office and most area businesses using Windows programs, this class is perfect for all students, college or career bound | 9-12 | None |
| Entrepreneurship (formerly Principles of Business) | Ever watched Shark Tank and thought, “I could do that”? In this course, students have the opportunity to start their own business and make all the decisions that a sole business owner would need to make when creating a brand new business. At the end of the semester, students will have a complete picture of what their small business could look like. | 10-12 | Introduction to Business & Marketing |
| Principles of Marketing | Students dive into the world of branding, advertising, and all things marketing in this class. With a brief overview of the subject, students are able to experience a wide variety of applications of marketing principles throughout the semester | 10-12 | Introduction to Business & Marketing |

| | | | |
|-----------------------------------|---|-------|---|
| I.T. Fundamentals | This newly designed course is perfect for anyone interested in learning more about computers, technology, and troubleshooting errors. Students learn the inside components of various computers, networking, and how to solve basic computer issues. This class is a great fit for those interested in pursuing computer science, technology, or just simply wanting to learn more about computers. | 9-12 | None |
| Accounting 1 | If you are considering a career in business, taking accounting in high school will make life much easier in the future. Understanding business procedures is vital to all areas of business and management. This course covers the accounting cycle for a sole proprietorship and a merchandising corporation | 10-12 | None |
| Accounting 2 | This course is meant to serve as a deeper dive into accounting topics such as depreciation, uncollectible accounts, and more. With more exposure to accounting software, students will be better prepared to continue their business education in college. | 11-12 | At least a C both semesters of Accounting 1 |
| Sports & Entertainment Management | Like sports or fascinated by festival events? In Sports & Entertainment Management, students apply the marketing concepts from Principles of Marketing to the specific industry of entertainment and sports. Students engage in projects and activities, focused on promoting a variety of types of events | 11-12 | Principles of Marketing |
| Business Law | Have you ever wanted to know how our legal system works and where it came from? In this course, we explore where laws come from and how they are enforced. From criminal and civil law to contract and employment law, students will learn the basic principles of the legal system | 10-12 | Principles of Business |

| | | | |
|--|---|-----------------------------|---|
| Retail Management (School Store) | Do you want to see your classmates wearing your designs? In the Retail Management class, you are in charge of operating and managing the Hawks' Nest. Students design all products, decide what to order, keep inventory on products, and so much more. During the school year, students experience Homecoming, Winter Holidays, Spring Clearance, and end-of-the-year wrap-up. | 11-12 | Principles of Marketing or Accounting 1 |
| International Business | Global business markets have exploded in the past twenty years, bringing about even more opportunities than ever before. However, with that opportunity has come new barriers and challenges as well. Throughout this semester long course, students apply their business knowledge to a global scale and expand their critical thinking | 11-12 | Sports & Entertainment Management or Business Law |
| Financial Literacy and Employability Skills (FLES) | This course is required for all juniors to graduate at Milton High School. It teaches how students how to manage money, how to get and keep a job, and many other life skills | 11 th grade only | None |
