

# School District of Milton – Options Development

8 July 2015

## Option 1 - Address Maintenance Needs at Current Buildings

- Address maintenance items at all buildings
- Address accessibility items at all buildings
- Pursue referendum to address all items as a coordinated effort

## Option 2 – Renovate and Expand Existing Middle School & High School

#### **Option 2A – Maintain Current Grade Level Configuration**

- Significantly renovate and expand the existing High School building to accommodate modern learning environments (Grades 9-12)
- Significantly renovate existing Middle School and expand the building to accommodate modern learning environments (Grades 7-8)
- Maintain current grade level configurations at all buildings
- Renovate and expand each elementary to accommodate modern learning (Grades K-3)
- · Address maintenance items at all buildings

## **Option 2B – Reconfigure Grade Levels**

- Significantly renovate and expand the existing High School building to accommodate modern learning environments (Grades 9-12)
- Significantly renovate existing Middle School and expand the building further to accommodate modern learning environments and Grade 6 (Grades 6-8)
- Shift Sixth Grade from Northside Intermediate to the expanded Middle School
- Shift Third Grade to Northside Intermediate (Grades 3-5) to free space at Elementary Schools
- Renovate space at Consolidated, East, West and Harmony Elementaries to provide Breakout/Student Collaboration spaces and accommodate Grades 4K-2
- Address maintenance items at all buildings

## Option 3 - Build New Middle School

#### **Option 3A – Maintain Current Grade Level Configuration**

- Significantly renovate and expand the existing High School building to accommodate modern learning environments (Grades 9-12)
- Construct a smaller new Middle School building to maintain current grade level configurations adjacent to the existing High School building (Grade 7-8). Configure the building to allow some sharing of facilities between High School and Middle School.

- Maintain current grade level configurations at all buildings
- Renovate and expand space at Consolidated, East, West and Harmony Elementaries to provide Breakout/Student Collaboration spaces and accommodate Grades 4K-3
- Selective renovation at existing Middle School to accommodate MECAS and Community Programming
- Address maintenance items at all buildings

## **Option 3B - Reconfigure Grade Levels**

- Significantly renovate and expand the existing High School building to accommodate modern learning environments (Grades 9-12)
- Construct a larger new Middle School building adjacent to the existing High School building (Grade 6-8). Configure the building to allow some sharing of facilities between High School and Middle School.
- Shift Sixth Grade to the New Middle School building
- Shift Third Grade to Northside Intermediate (Grades 3-5) to free space at Elementary Schools
- Renovate space at Consolidated, East, West and Harmony Elementaries to provide Breakout/Student Collaboration spaces and accommodate Grades 4K-2.
- Close current Middle School building reserve for future capacity needs
- Address maintenance items at all buildings except former Middle School Building

#### Option 4 - Build new High School

#### Option 4A – Build new High School; Convert Middle School to Elementary

- Build new High School (Grades 9 12) adjacent to existing High School
- Renovate existing High School to accommodate Middle School (Grades 6-8)
- Shift Sixth Grade from Northside Intermediate into Middle School
- Northside Intermediate to house Grades 4 & 5
- Renovate existing Middle School Building to become fifth elementary school (Grades K-3)
- Renovate each elementary to accommodate modern learning (Grades K-3)
- Address maintenance items at all buildings

## Option 4B - Build new High School; Realign Grade Levels at Five Elementaries

- Build new High School (Grades 9 12) adjacent to existing High School
- Renovate existing High School to accommodate Middle School (Grades 6-8)
- Move Sixth Grade from Northside Intermediate into Middle School
- Renovate existing Middle School into an Elementary School (Grades K-5)
- Convert Northside Intermediate into an Elementary School (Grades K-5)
- Add two classrooms and Breakout/Student Collaboration space to Consolidated Elementary (Grades K-5)

- Renovate space at East, West and Harmony to provide Breakout/Student Collaboration space (Grades 4K-5)
- · Address maintenance items at all buildings

#### Option 4C - Build new High School; Realign Grade Levels at Five Elementaries

- Build new High School (Grades 9 12) adjacent to existing High School
- Renovate existing High School to accommodate Middle School (Grades 5-8)
- Renovate space at Northside, East, West and Harmony Elementaries to provide Breakout/Student Collaboration spaces and accommodate Grades 4K-4.
- Add one classroom and Breakout/Student Collaboration space to Consolidated El. (Grades K-4)
- Address maintenance items at all buildings

## Option 4D - Build New High School, Realign Grade Levels at Elementaries, Create Two Intermediate Schools

- Build new High School (Grades 9 12) adjacent to existing High School
- Renovate existing High School to accommodate Middle School (Grades 6-8)
- Renovate space at Consolidated, East, West and Harmony Elementaries to provide Breakout/Student Collaboration spaces and accommodate Grades 4K-2.
- Renovate existing Middle School to become an Intermediate School (Grades 3-5)
- Shift some population from Northside Intermediate to second Intermediate; renovate areas to provide Breakout/Student Collaboration spaces (Grades 3-5)
- Address maintenance items at all buildings

## Option 4E – Build New High School, Repurpose Existing Middle School

- Build new High School (Grades 9 12) adjacent to existing High School
- Renovate existing High School to accommodate Middle School (Grades 6-8)
- Selective renovation at existing Middle School to accommodate MECAS and Community Programming
- Shift Third Grade to Northside Intermediate (Grades 3-5) to free space at Elementary Schools
- Renovate space at Consolidated, East, West and Harmony Elementaries to provide Breakout/Student Collaboration spaces and accommodate Grades 4K-2.
- Address maintenance items at all buildings

#### Option 4F - Build new High School; Close Middle School

- Build new High School (Grades 9 12) adjacent to existing High School
- Renovate existing High School to accommodate Middle School (Grades 6-8)
- Shift Third Grade to Northside Intermediate (Grades 3-5) to free space at Elementary Schools
- Renovate space at Consolidated, East, West and Harmony Elementaries to provide Breakout/Student Collaboration spaces and accommodate Grades 4K-2.
- Close current Middle School building reserve for future capacity needs
- Address maintenance items at all buildings except former Middle School Building
