

AGRICULTURE SCIENCE **PATHWAY**

Elective Offerings

Milton High School offers students the chance to explore agriculture through hands-on electives while completing required courses. Students study plant and animal science, manage natural resources, and run agriculture projects, gaining practical skills for careers in farming, agribusiness, and environmental stewardship while in high school through electives such as:

- Small Animal Science
- Large Animal Science
- Principles of Plant Science
- Art of Plants
- Wildlife Ecology - Mammals
- Wildlife Ecology - Fish and Birds
- Agriculture Business Foundations
- Agriculture Leadership
- Vet Science
- Large Animal Production
- Vet Science Procedures Capstone
- Greenhouse and Horticulture Management Capstone
- Advanced Wildlife Capstone
