

AUTOMOTIVE PATHWAY

Elective Offerings

Milton High School offers students the opportunity to explore automotive and mechanics through hands-on electives while completing required courses. Students learn shop safety, work with tools, understand engines, troubleshoot systems, rebuild engines, and earn the Snap-On Multimeter Certification, gaining skills for careers in the automotive field while in high school through electives such as:

- 
- Home and Auto Maintenance
 - Small Engines
 - Multi Cylinder Engines
 - Troubleshooting and Diagnostics
 - Automotive Autobody and Wiring
 - Automotive and Mechanics Capstone – Performance
 - Automotive and Mechanics Capstone – Troubleshooting
