

# COMPUTER SCIENCE AND ROBOTICS **PATHWAY**

## Elective Offerings

Milton High School offers students the chance to explore computer science and robotics through hands-on electives while completing required courses. Students learn coding, program robots, troubleshoot hardware and software, and solve real-world problems, gaining practical skills for careers in technology while in high school through electives such as:

- Introduction to Coding
- IT Fundamentals
- Computer Programming
- Introduction to Robotics
- Advanced Robotics
- AP Computer Science A
- AP Computer Science Principles (PLTW)
- Cybersecurity (PLTW)
