

CONSTRUCTION PATHWAY

Elective Offerings

Milton High School introduces students to the construction trades through hands-on electives while completing required courses. Students learn safe tool use, explore building systems like electrical and plumbing, and complete projects in interactive labs, gaining practical skills for careers in construction and skilled trades while in high school through electives such as:

- 
- Home and Auto Maintenance
 - Construction 1
 - Construction Trades – Interior
 - Construction Trades – Exterior
 - Construction Trades Systems Capstone
 - Construction Trades Processes Capstone
 - Woods 1: Introduction to Woodworking
 - Woods 2: Advanced Woodworking
